TTK is a community group,
part of the international
Transition movement.

TTK educates and campaigns about the climate and nature crises, building resilience and supporting local action:

- Energy efficiency and clean energy initiatives, encouraging alternatives to fossil fuels
- Sustainable transport initiatives, such as promoting safe cycle lanes and walkability
- Local food projects, for example, community gardens and harvesting unwanted fruits
- Fostering skill sharing, waste reduction, repairing and a circular economy

We celebrate co-operation, collaborations, friendships and successes.

"If we wait for the government, it'll be too little, too late. If we act as individuals, it'll be too little. But if we act as communities, it might just be enough, just in time."

Rob Hopkins, Transition movement founder
